

ANNUAL MEMBERSHIP CENSUS

2023

World
Physiotherapy

ZIMBABWE

ZIMBABWE | PHYSIOTHERAPIST NUMBERS

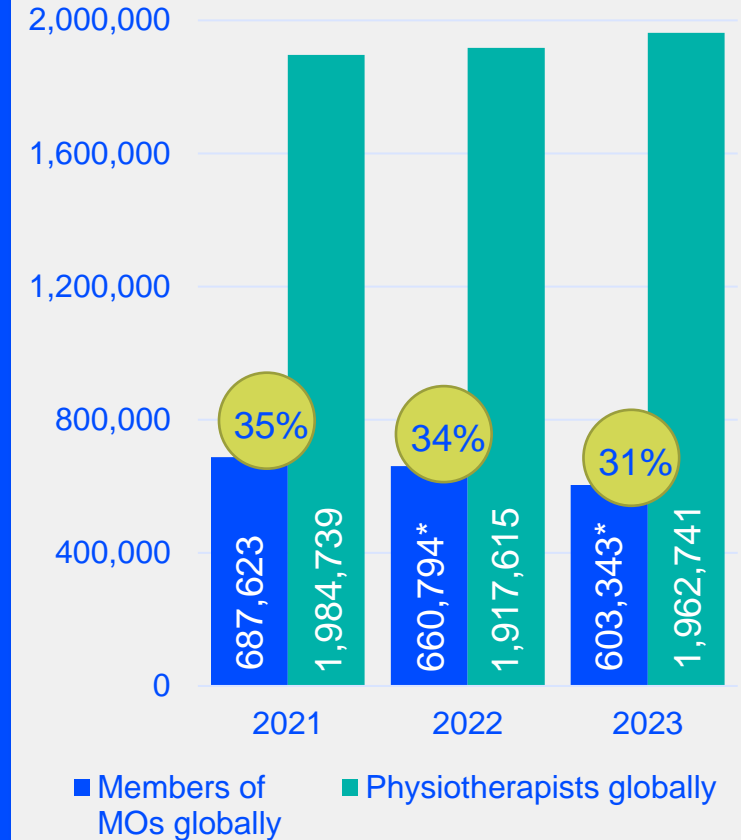

Physiotherapists in Zimbabwe

Physiotherapists in World Physiotherapy Africa region

Physiotherapists in the world

%

shows the percentage of physiotherapists that are members of a World Physiotherapy member organisation

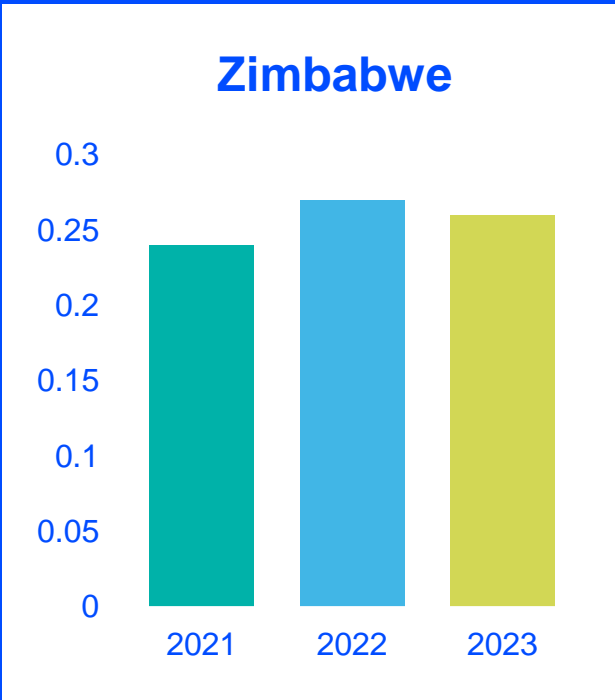

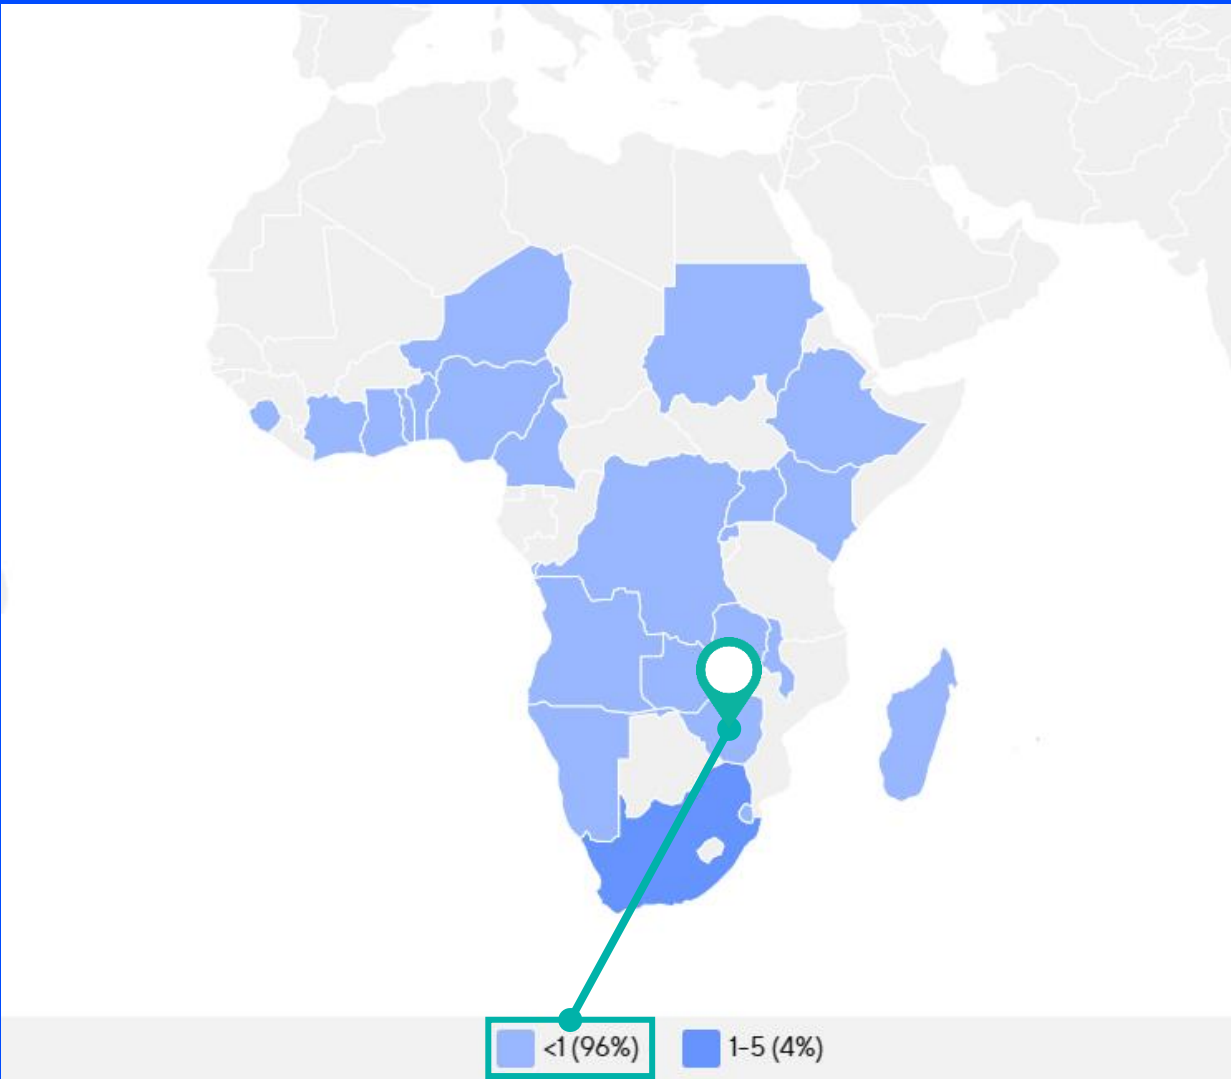

The data in this page includes data from all of World Physiotherapy's 127 member organisations. Some data has also been collated from other sources available to World Physiotherapy.

*The decreases are due to changes in the number of individual members in the Indian Association of Physiotherapists from 2021-2022, and the resignation of the Polish Chamber of Physiotherapists, with effect from 1 January 2023.

DISCLAIMER

- The data in this report is based on responses to the annual membership census (AMC) sent to World Physiotherapy's member organisations.
- The AMC was sent to 127 member organisations, of which 119 responded, representing a 93.7% response rate. In the Africa region 23 out of 27 member organisations submitted their AMC data, this represents an 85.2% engagement rate in the region. This is consistent with previous years' response rates and demonstrates strong engagement between World Physiotherapy and its member organisations. The census date was 30 June 2023.
- Some data in this report has been collated from other sources available to World Physiotherapy.
- If you have any questions or concerns, or want to make changes to your country's data, please contact membershipcensus@world.physio.
