World Physiotherapy board announces host city location for general meeting and congress in 2027

World Physiotherapy's 21st general meeting and its congress in 2027 will be hosted by [AMEFI Colegio Nacional de Fisioterapia/Mexican Association of Physiotherapy](#) and take place in Guadalajara, Mexico, the World Physiotherapy board has announced.

This will be the first time World Physiotherapy has held its general meeting and congress in its South America region.

[AMEFI Colegio Nacional de Fisioterapia/Mexican Association of Physiotherapy](#) has been a member of World Physiotherapy since 1970 and has 621 members.

Note to World Physiotherapy member organisations: please use this information in your magazine, journal, newsletter or social media channels. It may also be forwarded to your local or national media.

EDITOR'S NOTES

About physiotherapy

Physiotherapists are experts in developing and maintaining people's ability to move and function throughout their lives. With an advanced understanding of how the body moves and what keeps it from moving well, they promote wellness, mobility and independence. They treat and prevent many problems caused by pain, illness, disability and disease, sport and work related injuries, ageing and inactivity.

Physiotherapists are educated over several years, giving them a full knowledge of the body's systems and the skills to treat a wide range of problems. This education is usually university-based, at a level that allows physiotherapists to practise independently. Continuing education ensures that they keep up to date with the latest advances in research and practice. Many physiotherapists are engaged in research themselves.

Unit 17
Empire Square
London SE1 4NA, UK
