

Short Description:

In observance of World & National Physical Therapy Day 2025, the Physical Medicine and Rehabilitation Department at Pasig Hope Medical Center/Pasig City Children's Hospital successfully organized a seminar and workshop on September 19, 2025. The full-day event, held at the hospital's Physical Therapy Section, was dedicated to promoting awareness and prevention of work-related and sport-related conditions. This initiative not only enhanced the professional development of hospital employees but also celebrated the critical role physical therapists play in the health of individuals and communities.
